NOTES:

1 Use types identified by abbreviations as follows:

DSF = Detached single-family residential; conventional subdivision

CSFD = Cluster single-family development with on-site well and septic

CSF-1 = Cluster single-family (detached units), residential subdivision with public water

CSF-2 = Cluster single-family (detached units), residential subdivision with public water and public sanitary sewers

LA = Lot averaging

OSS = On-site septic systems

PS = Public sewers

2 The minimum lot area shall be provided within each building lot as provided in this schedule.

3 The minimum lot frontage for a flag lot as measured at the public street right-of-way shall be 50 feet in accordance with § 90-49B(1) of this chapter.

4 Each cluster development shall provide the minimum proportion of open space required in this schedule, as calculated based upon the gross area of the tract to be developed. All open spaces shall be contiguous with the tract to be developed. This figure is a minimum amount of open space. All lands not contained within the lot area of the maximum number of lots permitted shall be in established open space.

5 The minimum area of contiguous land which must be available for development with each application for a cluster residential subdivision, lot averaging subdivision or industrial park.

6 The minimum tract for farming shall be six acres.

7 Each lot shall be shown to be capable of having inscribed within the building envelope as established by the applicable front, side and rear setback dimensions, the minimum buildable area in accordance with the standards contained herein.

8 Any principal or accessory building or parking or loading area in the HC Highway Commercial Zone District shall be situated a maximum distance of 500 feet from the front property line. Any area located more than 500 feet from the front property line shall be utilized strictly as open space. The front property line shall be deemed the property line parallel to the front façade of the principal building.

9 For lots 10 acres (435,600 square feet) or greater in lot area, the maximum lot coverage will be 5%.

10 For warehouse uses, the maximum building height shall be 48 feet with a maximum of 1 story.

Additional Information

Please note that mapping of the resources described in this report is available using the Create Map menu. Assistance is available in the Help link located at the upper right corner of the interactive map.

If you have questions about the information contained in this report, please contact the Highlands Council at (908) 879-6737 or highlands@highlands.nj.gov. Additional information is also available via the links below.

• Project Reviews

Please note that jurisdiction for project reviews in the Highlands Region is shared between the Highlands Council and the New Jersey Department of Environmental Protection. Information regarding the types of projects that require Highlands Council review is available on the Highlands Council website.

www.nj.gov/njhighlands/projectreview/

• Highlands Act Exemptions and Waivers

The Highlands Act creates seventeen exemptions that allow property owners to develop their properties without applying the enhanced environmental standards adopted by the New Jersey Department of Environmental Protection in the Preservation Area.

www.nj.gov/njhighlands/about/contact/exemptions.pdf

Please note that several municipalities have been certified to make exemption determinations for some of the most common exemptions. Information regarding this program is available on the Highlands Council website.

www.nj.gov/njhighlands/planconformance/guidelines/exempt.html

• Municipal and County Liaisons

A Highlands Council staff liaison is assigned to every highlands municipality or county involved in the Plan Conformance process. A list of liaisons is available at the Highlands Council website.

www.nj.gov/njhighlands/planconformance/muni-liaisons/

• Highlands Plan Conformance Process and Status

Plan Conformance includes the revision of local planning and regulatory documents to integrate the land use and resource management requirements of the Highlands Act so those documents will conform to the goals, requirements and provisions of the Regional Master Plan (RMP). Plan conformance is required by the Highlands Act throughout the Preservation Area and is voluntary in the Planning Area.

www.nj.gov/njhighlands/planconformance/
